The ZAPAX GLOBAL logo

The Route Z

The symbol traces a Z as a trade route. It begins at the turmeric **origin point**, the source of every product we supply, and travels in three decisive strokes, **source, prepare, deliver**, to its destination. The rounded indigo tile works like a seal of quality: a contained, accountable promise.

The wordmark keeps the wide, geometric ZAPAX GLOBAL letterforms. The A is drawn without a crossbar, an open upward form that reads as ascent and growth.

Slogan: Where trust travels.

Logo versions

Primary (full colour) on white or light indigo tints. **White** (one colour) on indigo or dark photography. **Dark** (one-colour indigo) for single-colour print, stamps, invoices and embossing on light stock. Use the **horizontal** logo by default, **stacked** where space is square or tall, and the **symbol** alone only where ZAPAX GLOBAL is already established (app icons, social avatars, packaging seals, favicons).

Clear space and minimum size

Clear space on every side = **half the symbol height** (shown hatched). Keep text, edges and other graphics out of this area.

Version	Print min.	Screen min.
Horizontal logo	30 mm wide	120 px wide
Horizontal with slogan	45 mm wide	200 px wide
Stacked logo	20 mm wide	80 px wide
Symbol	6 mm	16 px

Below the slogan minimum, use the logo without the slogan.

Do not

Stretch or squash

Rotate

Recolour (for example all turmeric)

Add shadows or effects

Place on low-contrast backgrounds

Fade or reduce opacity

Change the origin dot colour

Rearrange or resize parts

Business card print finishes (recommended options)

Card size 90 × 54 mm (Indian standard), files include 3 mm bleed and a 4 mm safe area. Suggested: 350–450 gsm matte or soft-touch laminated board; optional spot UV or debossing on the symbol (front); foil matched to Turmeric #E0A526 on the origin point only (no other foil colours). Finishes are production options. The digital PNG previews show flat colour, not the effect.
