A partner-led supply model

ZAPAX GLOBAL is a sourcing and export company, not a manufacturer. We work with producing partners selected for each product, agree the specification with you in writing, and coordinate packing, documents and shipment.

Every deal on written terms

Specification, price, Incoterms, payment terms and documents are agreed in writing in the proforma invoice or contract before any order, for every shipment and every product category. Bank details are never changed by email or chat.

ZAPAX GLOBAL

Specification at a glance

Item	What we agree with you
Form and cut	Flakes, chopped, minced, granules or powder, as listed for each product.
Mesh and particle size	Your required sieve range or cut size, confirmed against what our partners can supply.
Moisture and shelf life	Values and shelf life stated on the specification sheet for the agreed packing.
Quality documents	Microbiological, chemical, physical and other documents your destination requires.

Packaging options

Bulk cartons

Poly-lined corrugated cartons. Commonly requested net weights include 10, 20 and 25 kg, subject to product and agreement.

Barrier bags

Aluminium foil vacuum bags for products and markets that need extra moisture protection.

Retail formats

Stand-up pouches, where product, labelling and order size allow.

To prepare a useful inquiry

1. Product and intended application
2. Required form, cut or mesh, and preferred packaging
3. Estimated quantity in metric tons or container loads
4. Destination port, target timing and document requirements
